A Message from Interim 1st VP: Dawn Surprenant

Hi. My name is Dawn Surprenant. I have been involved with ETI for approximately 30 years as a competitor on and off as life gets in the way and am currently a member for both Corrals 118 and 37! I live, work and run a horse ranch located in Mojave, CA, for the past 25 years. My husband Brian Surprenant of 25 years, my daughter Laurel & myself have been breeding, boarding & raising Paints & Quarter Horses in the Hi-Desert. We raise and show Halter Champions and Performance bred stock. I have loved being a horse rancher most of my adult life with the love and support from my family! We have evolved our operation to include show cattle and show hogs...truly living the dream! My daughter, who is also a member of Corrals 118 and 37, showed our cattle through CJLA...she has won numerous year end titles. Showing horses, cattle or hogs is in our blood! We are a competitive family that loves being around people and consider ourselves blessed!

I have been showing with ETI since I was a teenager and want to see this organization prosper and be successful in the future and that is why I am willing to volunteer my time on the National Board! A little background on myself is I am currently the sitting President for HiDHA in the Antelope Valley. We at HiDHA have been experiencing growth and have expanded under my leadership. I have been President for two years working on my 3rd year, and before that I was Secretary for two years. No organization is perfect, but having said that, we need to evolve ETI with the times and promote equestrian activities across all platforms...

Looking forward to serving as 1st Vice President.

Thank you.

Dawn

Thank you to the Marshall Canyon MAU for organizing a training and campout for all the MAU units. It was a wonderful weekend with a great training given by Mick, patrols, and a campfire with songs lead by Darlene. A big thank you to Marshall Canyon for being so welcoming to all the MAU's for this campout.

ETI National Horse Show High Point Program News

The 2016 High Point Season is OFF AND RUNNING (so to speak).

We have competitors signed (and signing) up in a wide range of categories – ranch, walk/trot, English flat and over fences, western pleasure. The first show of the year was a big success, and very well attended. Thanks to Corral 37 for hosting this show, and next time, a little less wind, please.

The second show will be (and probably by press time, will have been) held on May 1, at Martinez Arena in Burbank presented by Corral 38. We'll let you know how that went in the next newsletter.

Our third show is presented by Corral 10 and will be held on May 22 at Stetson Ranch in Sylmar. Corral 10 has no shortage of energy, its premium is breathtaking, and corral 10 will be holding classes in 3 separate rings.

Still time to sign up with high point!!!! There are 8 shows this year, including 2 at Convention in June. Hope you join us this year - your year end award points start at shows held after we receive your high point entry form and check. Mail the originals to 1170 Boston Street, Altadena, CA 91001.

Need high point forms, rules, premiums or have questions? Email etihighpoint2015@gmail.com, or visit ETI's spanking new website (Etinational.com.) for high point information and forms.

June 15, 2016 Mounted Shooting 6 pm - Dinner (5 pm for \$5)

Mark Pellegrino and family for a mounted shooting exhibition

Mounted shooting is an exciting event, which is similar to other timed rodeo events like barrel racing and many timed cattle events. Mounted shooting has earned a reputation of integrity, fairness and continuing excitement.

Competitors dress in cowboy attire dating from modern rodeo attire, all the way back to the old west era and the classic old west apparel. They are mounted on horses of any chosen breed and size, while most mounted shooting horses tend to be quarter horses with some cow experience in their breeding. Competitors engage in courses which consist of elevated balloon targets of various color combinations.

Corral 66 at Sawtooth Campground

by Jeanette Hayhurst

ETI Corral 66 out of Barstow recently got the chance to introduce a group of "city kids" to horses. On March 26, several of us loaded up our horses and headed off to Sawtooth Campground about 8 miles south of Barstow. When we arrived we chatted with the campers that were there and unloaded the horses. We then led the horses around the 1/4 mile loop that we would be leading the kids around. Our route included walking out on a gravel road and walking back through the desert. Once everyone was familiar with the route we tied the horses back at the trailers and waited for kids to arrive.

A short time later the City of Barstow's transit bus arrived with twelve children ages 8 to 12 years old, several parent volunteers and Jane Laraman-Brockhurst the Coordinator for the Bureau of Land Management's Desert Discovery Kid's Program. It was a beautiful desert morning, not too hot, not too cold and not too windy. The kids bounced down the steps of the bus obviously excited about their day.

We were able to herd the children over to a ring of rocks where they were able to sit and watch. We knew they wouldn't remember our names, but we did tell them the horses' names. We told them that the Paint's name was "Scout", the white pony was "Candy", the Appaloosa was "Summer" and Haflinger with the blond mane was "Misty". They remembered all of the horses names the first time! We then talked about how important horses are in our country's history and how horses can go barefoot, wear metal shoes or slip-on boots. They learned about the parts of the horse and even got to label the different parts of a horse on the magnetic board. We finished by talking about how horses are big, but they can be fearful because they are prey animals.

saddled up close. Then the first group of students put on their helmets and were helped up into the saddles. We led all four horses around the pre-determined route. Some of the kids were apprehensive for the first few steps. It took time for some of them to relax and feel the rhythm of the horses walk, but once they did their faces just lit up!

The entire event lasted just under two hours. We hope we inspired a least one child to someday become a horse owner or at least appreciate horses. I'll admit it is a bit stressful when you have other people's children, but it was so worth it, and we are already making plans to do it again next year!

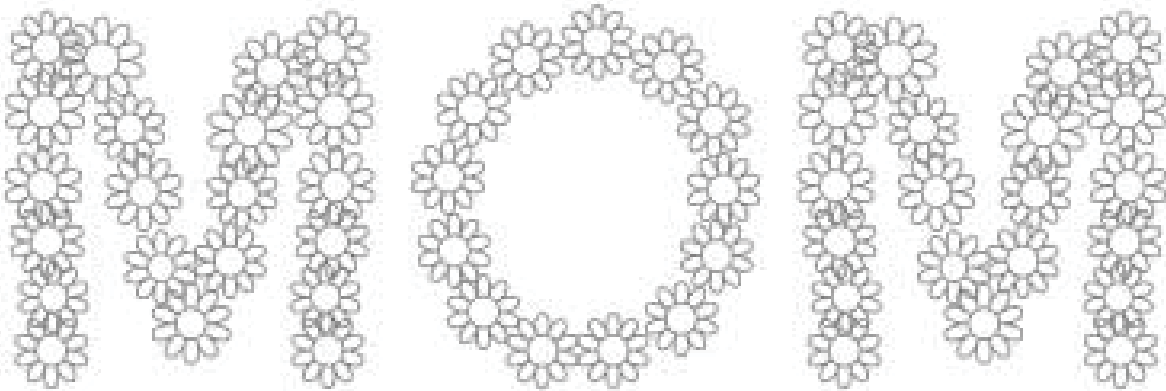

Since there were four horses and twelve students, each horse was assigned 3 "riders". Most of the kids had never ridden a horse except for pony rides at the fair, but now they were getting to help groom the horses and watch

Corral 138 Trail Trial Wrapup

by Kimberly Dwight

It had been windy the week before but we flagged Saturday afternoon without problems. Thank you for flagging with me Shonda Shubert, Leah Frankenberg, Ron Witte and especially Christine Buzzard who hopped off and on numerous times to pin ribbons to low weeds. All of them returned Sunday to judge or help. It truly takes dozens of volunteers to put on a Trail Trial. I insist my judges have competed in Trail Trials themselves and try to provide a helper for each.

Our obstacles were the tack check and pick left front hoof judged by Tawna Born. Pam Witte gave the instructions for both obstacle #1 and #2.

Since riders were already on the ground they led (not judged because of the closeness of the obstacles and we wanted it to flow smoothly) to the permanent big tire and mounted for Diane Garton.

After riding on the dedicated trail our log branch drag was judged by Sharon Boyle with her husband George helping. The next obstacle was pushing a horizontal yucca branch that had fallen between two juniper trees. For safety reasons we decided to use a noodle instead of a yucca. This was judged by Debra Mader with Dan Cotten helping.

Crossing Barrel Springs Road riders came to our downhill judged by Leah Frankenberg assisted by Kathy Rush. Close by was a Joshua tree with several fallen branches to step over judged by Erin Seem and her helper Erin Collins.

by Kimberly Dwight

Then we had a ditch where Barbara Goldberg helped Tracy Smith, followed by the backup where Ron Witte helped Chris Buzzard. Our uphill was judged by Stacey O'Hara assisted by Sunshine Eustace.

Close to the staging area again our last obstacle was judged by Pam Thomas as hiker Cyndi Johnson walked by with a backpack and map on a scroll for riders to point to.

After turning in their cards riders could practice on the permanent obstacles near the arena waiting for everyone to return.

My entry helpers were Sue Winters, my co-chair, Idris and Yolanda Lloyd, Susan Mustaffa, and Nancee Barnett. Lunch was prepared by Elaine Macdonald and Debbie Stevens.

Poker was won by Diane Conner.

Emily has been riding with the me, Anjelica Glosup, since she was 4 years old...she is now 12 years old. Teaching Emily has been a dream. She has the "horse bug" and takes every lesson and barrel practices seriously and really wants to improve herself and her horse, Zena. Emily started riding Zena, a 10 year Percheron/Quarter horse mare who before Emily met her was being used a lawn ornament (Emily and Zena started working together about 3 1/2 years ago). Zena has turned into an amazing barrel horse and is improving every race. Last year at ETI Convention State Finals 2015, the duo got bumped from "A" to "AAA" by timing in "AAA" times! We were all very impressed! Seeing these two in action is just pure excitement.

Emily has decided to do a whole season this year at Corral 21's Gymkhana. Something fun about this corral is every month is a different theme. Emily doesn't take competition lightly...she dives into it! Not only can she ride, but she's very artistic. Zena and Emily were covered in ribbons and braids going along with the monthly theme of "Ribbons and Braids" and taking home the prize!

Zena and Emily have a bright future and being able to coach these two I feel very fortunate. I love seeing hard work and dedication pay off. Every race their times get faster and faster. We see after each run what there is to be worked and what can be polished up and or improved upon which is what riding horses is about. Emily is a sweet girl and loves her horse, Zena. She's an amazing team player and loves to see her fellow competitors do well! She is a great example for the younger kids around the barn and has many looking up to her and wanting to be just like her and Zena. This girl never settles. She puts the effort and commitment that it takes to be a winner, and it had paid off and shown!

In a cloud of dust and a hearty "Hi Ho Sera", we sped through Glendora and left townsfolk saying, "Who is that Grey haired lady on the white horse?" We waved our Corral 35 sign from one end of town to the other. Corral 35 was at Glendora Trails Day at South Hills Wilderness Park on Saturday April 2. The next Saturday Keith, Sera', and I spent the entire day on the front lawn of the City Hall in Glendora. We handed out pamphlets on Corral 35, trail maps, and information on trails and wildlife here in town as part of the Earth Day Celebration and Festival. The following day, Sunday, we hosted a California Fox trotters Association Clinic at our Arena and Clubhouse. That afternoon at 3:00, we were happy to be under the big oak tree at the First Christian Church of Glendora for the Annual Blessing of the Animals. It's called Public Relations, by some; Advertising by others; and Sharing by even others.

I know that you are asking yourself, "What does all this have to do with horses and being in a Corral? Well, in my opinion, it is a very important part of the reason to be a member of an ETI Corral. One of the mission statements of ETI is to promote the equestrian life style, preserve trails and open space, and generate a future of young horse lovers and equestrians. I have found that there are so many adults that have never had the chance to touch a real live horse in their lives. So many children who never had the opportunity to pet, kiss or smell a live horse. So many people who had a terrifying or miserable experience their first time with a horse that they never liked horses for their whole life. Some college students who are away from home are thrilled to connect with a horse and ease the homesickness. I could go on and on, but you get the idea. When I was growing up in Burbank, my Dad had a trick performing horse that he used when working as a stunt man in the movies. Dad would take Diablo to the school grounds and perform for the children, and let them interact with his horse. I have inherited that trait, and I am convinced that, by making folks aware of horses in town, we will be able to enjoy them here for many years, in spite of developers. Hopefully, in my own way, I will be insuring the future of ETI and Corral 35 by enlisting these children into our horse loving community, where ever they live.

Mark your Calendar for June 15, when Corral 35 presents a Wednesday evening Hot Dog Roast and Mounted Shooting Exhibition. Free. Dinner \$5.00. 6:00 PM. Yes, this is another one of our Community Outreach Programs.

Watch for the llamas coming on June 24 - 25. Most events in the evening.

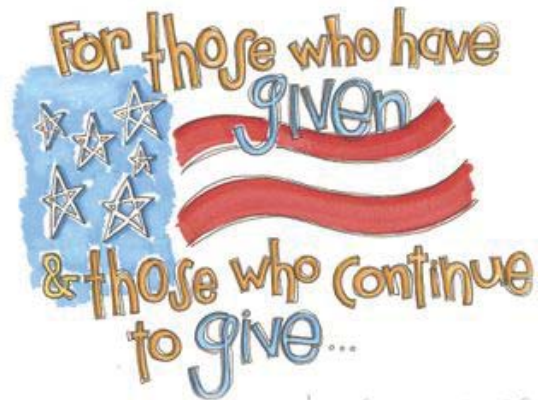

On July 20 we will present a Petting Zoo and dinner. Free. Dinner \$5.00. Bring friends, neighbors, family. Start about 5:00pm.

Take the time to share your horse with a greenhorn, chat with a friend, and above all else, have a good laugh with someone you love!

COASTAL DEVELOPMENT PERMITS IN SANTA MONICA MOUNTAINS

About ten of our neighbors have finished the process, several of them being able to prove that they had horses on their property before the advent of the CCC in 1977. If you have a Horse Property without

THE RONALD REAGAN EQUESTRIAN CAMPGROUND

We are very pleased to let you know that great progress is being made towards the development of the Ronald Reagan Equestrian Campground at Malibu Creek State Park. Corral 36 member, Kimberly Gustafson, has been at work with Ruth Gerson to launch a Website and Facebook page for the development of the former Reagan Yearling Row into a campground for horses. The new website will make it convenient for you to make a donation toward the campground. Watch for the formal announcement.

Spring Fling Trail Ride at Malibu Creek State Park

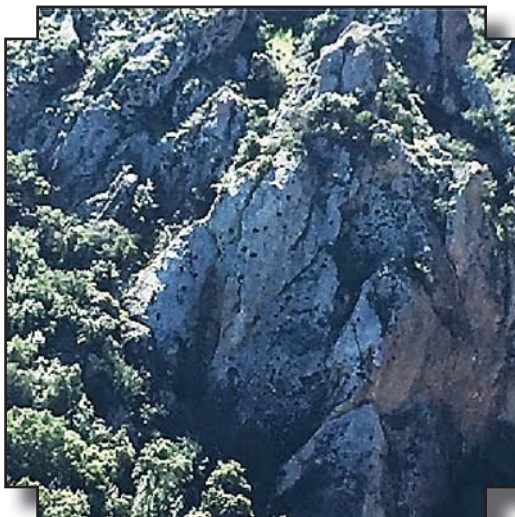

Text and photos by Pat Fish unless otherwise noted.

This is the view. No matter where we go, the landscape changes but the view of the instrument control panel does not. The ears let me know what is worth paying extra attention to, and when they are flopping back and forth, we are

in cruise mode.

Today Tobe and I joined a dozen members of Equestrian Trails Corral 36 for their Spring Fling ride at the Malibu Creek State Park, over 7,000 acres of nature in the center of the Santa Monica Mountains. We did a ride of 5.56 miles in 2.5 hours, a

leisurely stroll through the Reagan Ranch and the Udell Gorge, passing through the Goat Buttes, once the hunting grounds of the Golden Age millionaires.

Running along the edge of the park is Mulholland Drive, once the route the elite traveled to this idyllic spot for rural recreation. Now the famous Drive is beloved by weekend warrior motorcyclists, who revel in its curves and twists. Ronald Reagan had a ranch here from 1957-67 [called Yearling Row], and some of the buildings remain. The trail through his former acres is called the Yearling Trail, and old pens and fencing testify to ranching times.

This is one of the doors of the original Reagan Ranch barn. Once he became governor he deeded the property to the State, and it later became part of the larger Park property, preserved for posterity now as wild space.

The landscape is quite dramatic, and trails wind back and forth throughout. Some are reserved only for equestrians and hikers, while bicyclists are allowed on others.

The mighty sandstone outcroppings that form the Goat Buttes on the Backbone Trail always seem like something from another world to me, like a gorge in China. Seeking a rural setting in which to enjoy the outdoors, a group of wealthy Los Angeles businessmen formed the Craggs Country Club in 1900 and bought 2,000 acres along Malibu Creek that would later become the nucleus of Malibu Creek State Park.

Layer after layer of mountains reveal themselves as you walk through the trails.

In 1903, the Crags Country Club built a 50' dam in Malibu Creek, creating a 7- acre lake as their private duck hunting and trout fishing preserve. It was later renamed Century Lake by 20th Century Fox Studios when they bought the property and began filming on it.

Looking closely, you can see redwoods at the base of the buttes, their 100+ years of growth now threatened by drought. The rest of the landscape is flourishing in the current El Niño weather, but the redwoods have been hard hit and are distinctly brown.

Heading back, we looked down into the valley, a bit of Shangri-La attesting to why the name Malibu is known world-wide as the playground of the rich and famous.

Me, I'm living in my own cowgirl movie, and it was time to head back to civilization. After a pleasant lunch with the ETI crew, I loaded up my creature in the MuleBox and transported him home. He's my little girl dream of a pony come true, and together we look forward to many more adventures exploring the American landscape.

West Palms Events Is Proud to Introduce Compton Junior Posse Members Zoie Brogdon and Nathan Williams-Bonner to the LA Equestrian Festival

We All Wish Them the Best of Luck

West Palms Events would like to introduce Zoie Noelle Brogdon and Nathan Williams-Bonner - members of the Compton Junior Posse, avid horse lovers, and now competitors at the Los Angeles Equestrian Festival.

Zoie has been riding for one year and as she puts it, "has found my passion" in horses. Zoie will be competing on a horse named "Colby" at the Los Angeles Equestrian Festival, hosted by West Palms Events, and she is looking forward to an exciting and rewarding show experience. Zoie says, "my favorite thing about riding is the bond I

feel with my horse," adding, "there is nothing like the feeling when we are both moving in unison fast through the air."

Zoie can't wait to get in the ring and show the world what she's accomplished so far. She's looking forward to furthering her skills and becoming a more consistent rider through the help of CJP and West Palms Events. "CJP has taught me a lot about horses, English riding and farm care. I am so grateful to CJP for helping me find my passion." Mayisha Akbar, Founder of the Compton Junior Posse, had this to say about Zoie: "Zoie came to CJP searching for that missing piece in her life and found the true spark - a love for horses. In just a few months' time, Zoie's natural ability and connection shines brightly."

Nathan has been riding for eight years and will be riding a horse named "Cuba" at the LA Equestrian Festival. Nathan loves competing and is excited for all the opportunities the CJP has opened for him in the world of horses and equestrian competition. Nathan commented, "If the goal is to create better people and a better community, it starts with our youth. When you provide a bridge of resources as CJP does, you are presenting the food and water a seed needs to grow and flourish."

Mayisha Akbar is impressed with Nathan's dedication and commitment, saying, "We are very proud of Nathan, who started with CJP as a very young lad and now has grown into a passionate horseman, serious about making a name for himself in this sport."

YOGA FOR COWBOYS (AND GIRLS)

by Corral 36 member Heather Faucher, (443) 996-2053
Photos by Carol LaCorte

Anyone who regularly finds themselves astride a horse knows that with our wonderful lifestyle can come aches and pains. Usually this discomfort centers on hips, legs, and low back. As a yoga instructor and rider, I

am personally and professionally familiar with these body issues and hope that I can offer some insight and, possibly, solutions!

So what is actually happening to our bodies during the hours we spend in the saddle? To really understand this, you need to know that most of the muscles in our bodies work in opposing pairs. For instance, when you extend your leg from the knee, your quadriceps muscles on the front of your thigh are shortening, while your hamstrings behind your thigh are lengthening. It's also important to realize that when muscles remain in a shortened position for an extended period of time they become tight, and similarly, muscles kept in a lengthened position can become overly stretched and even weak.

So when we sit in the saddle, which muscles are shortened and potentially made tight? Well, the main one to consider is the hip flexor. That's the muscle that extends your leg forward from your hip and is located at the very top and front of your thigh. In fact, it is shortened even when you sit in a chair or in your car and can be tight for many people. The other leg muscle that can be shortened is the hamstring, which is really a group of three muscles located behind your thigh running from the buttocks to the back of the knee. It's the muscle that begins every step you take.

This muscle bends your knee, and so is also made tight by daily living, just like the hip flexor. The third muscle group that is affected particularly by riding is the hip abductors at your outer hip where the leg joins the torso. These muscles move your legs apart and away from the midline of the body. So when you sit in the saddle, your leg is forward of the hip, your knee is bent, and your legs are wide! You can see how these three groups of muscles are unnaturally shortened and can become tight.

One caveat to this analysis is if you are a bareback rider, in which case you still have all of these same conditions, but you are also over-utilizing your hip adductors, or inner thigh muscles. The constant squeezing of the legs into the horse to stay on when riding bareback (assuming you do more than mosey around at a slow walk) can make these muscles tight as well.

So what can we do about this situation? Well, there are several yoga stretches that can be useful to combat these tight muscles. I'll describe these for the right side, but of course you should do both sides, holding each stretch for 60-90 seconds.

The first is a Kneeling Lunge for the hip flexors. In this stretch, you position your right knee directly over your ankle and your left knee as far back on the floor as possible, looking to achieve a 45-degree angle between the left thigh and the floor. You want to gently press your right upper

thigh forward and downward, keeping the front knee stable over the ankle.

For the hamstrings there are many stretches, but the most simple is Head-to-Knee pose. For this one you begin seated on the floor with your left leg extended straight in front of you and the sole of your right foot against your left inner thigh, right knee to floor. Then fold forward over your extended left leg, reaching your hands for your left foot.

The hip abductor group (outer thigh) also has many options, but I will show you Cradle the Baby. Sit with your left leg extended on the floor in front of you and place your right ankle on top of that leg just above the knee. Then draw your left knee up until it is bent about 90 degrees. Your right knee will remain turned out towards the floor, and you will lift up your entire spine as if you were making yourself taller, taking care not to round the back. A more advanced version of this stretch gives the pose its name, in which you might cradle the right knee in the crook of your right elbow and the right foot in the crook of your left elbow, however if done improperly or too intensely this can lead to knee strain, so just stick with the basics for now.

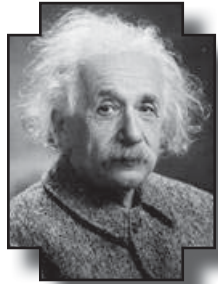

The fourth stretch that may benefit horseback riders is Butterfly, for the inner thigh muscles. Sit on the floor with the soles of your feet together and the outer edges of your feet on the floor. Take care not to pull your feet in too close to your body, thus over bending the knees. Holding on to your feet, sit up very tall and then fold forward from your hips, bringing your nose toward your feet and using your elbows to press the knees down toward the floor. This particular stretch can be alternated several times with Cradle the Baby to help keep the muscles around the hips balanced.

Do these yoga poses, or stretches, especially after you ride, when the muscles are at their tightest?

And if you are interested in more beneficial poses, I offer a twice-weekly yoga class in Monte Nido. Feel free to contact me for more information. (443) 996-2053

FOOD FOR THOUGHT

Albert Einstein wrote, "If you judge a fish by its ability to climb a tree, it will spend its whole life believing that it is stupid." As well, if you train a horse for sophisticated athletic performances with simplistic training techniques, the horse will spend his whole life struggling with performances for which he is not athletically prepared.

Einstein also reflected, "Everything should be made as simple as possible but not simpler." Most equestrian theories are simpler counting on the horse's talent to compensate for the inaptness of the horse's education. The outcome of course is lameness. Instead, why not enhance the horse's talent and also propensity to remain sound upgrading riding and training techniques to actual knowledge of the equine physiology?

The answer is a course which is not about making the horse do it, but instead how the horse does it. When a performance is thought in terms of optimal muscular development and coordination, the outcome is not only preserving soundness, but also restoring soundness.

Repetitive abnormal stress causes injury, and correcting the root cause of the abnormal stress is the most efficient therapy. "The gait abnormality created by a specific lesion is the gait abnormality that causes the lesion."

There is only one syllable between simple and simpler, and without adequate knowledge simple is simpler.

We do not pretend that the horse's biological mechanism is simple, but it can be clearly explained. We do not pretend that riding efficiently is simple, but it can be learned. We do not pretend that reeducating a horse is simple. Accepting the complexity of a problem is a decisive step toward resolving it. In most instances, a horse can be reeducated if we move away from the riding and training principles that created the problem.

The horse will suffer if we don't have a sound understanding of the horse's functional anatomy and therefore, the ability to prepare the horse's physique for the athletic demand of the performance.

Howdy all!

April kicked Corral 37 off to a great start to our 2016 Show and Gymkhana season! Our first Show of the season had 70+ riders and went from sun up to sun down! A great time was had by all, with many competitors coming for the new Ranch Horse classes. Our Gymkhana series has started 2016 with a change to the CGA time based divisions format to provide a fairer environment for all levels of rider!

Our upcoming May events include a High Point Show on May 8 and a Gymkhana on May 21. We also are in the process of scheduling a few Obstacle Playdays and Dressage events throughout the year.

Thanks to Corral volunteers and Conejo Rec & Park...the Conejo Creek Equestrian Park where our events are held is undergoing many improvements such as the addition of a dedicated dressage arena, cross country jumps & many other fun obstacles that will be utilized in upcoming events... and as always, the facility is completely open to the public. The main arena has lights on every night until 10pm!

Mary Kaufman, former President of Corral 54, died on March 24, 2016. Cause of death was a blood clot after a series of hip surgeries. She was 68 years old.

Mary was a good friend to me, and a passionate advocate for horse issues. She served on many Boards in the Chatsworth area with Councilman Mitch Englander. She also was on the Board of the LA Equine Advisory Committee, where she brought her energy, intelligence and willingness to volunteer on horse, trail and land issues all over the City of Los Angeles.

Mary is deeply mourned by all who knew her. She leaves a big hole in our hearts for us all by her sudden death. Gone too soon.

Recently, on a busy Saturday morning, I was informed that

there was a film crew on and around the Mariposa Bridge. Almost always I am notified in advance of any filming plans in the Park and send out an email blast about it to the equestrian public. Since I had not been notified of this filming, I assumed that it was not permitted and that the crew was poaching the area illegally.

When you encounter film making in the Park, as the people on the bridge Saturday, call the Rangers and ask if a permit has been given for this activity. Even if they claim that is permitted, it is best to double check.

Anytime you see illegal dumping, cars being driven on the trail, accidents or injuries or weird sexual activity, be sure and call the Rangers at (323) 644-6661. Riders and hikers in the park who have cell phones should have the Rangers' phone number on their phone.

I received a report of a drone being flown at a low level out of Bette Davis Park. According to reports, it came very close to an equestrian riding on the trail, causing the horse to spook and bolt. The rider was not thrown.

Another report was at a Hollywood Off Leash dog park where a drone flew directly at a dog and struck it in the face, causing injuries to the dog.

Again, call the Rangers on an incident like this. We are the eyes and ears for the Rangers.

There will be a DeAnza Expedition Celebration in Griffith Park on May 14, 2016. Re-enactment mounted riders will parade in costumes of the period with colorful banners. The ride will be from LAEC area on the dirt trail that runs along Zoo Drive to end at Crystal Springs picnic grounds. All interested equestrians are welcome to join the ride with them. Tentatively scheduled to depart at 10am.

All interested riders are invited to join. Please RSVP to me at akalynnbrown@aol.com. I am helping to organize the equestrian aspects of this event.

Once at Crystal Springs, there will be many activities for the public and their families to enjoy. Educational activities include conversations with "Anza" and "Father Junipero Serra", dances and music from the Tongva Nation/ Gabrieleno Indians, and period dancing and public participation, just to name a few interesting educational opportunities to enjoy.

Come join the fun!

Heads up to all Corral 38 members, ETI's annual Convention

this year will be June 24, 25 and 26 at LAEC. The Horse Show and Convention is our largest fundraiser of the year and cannot be done without the great members we have to help us.

Please go to your Corral meetings and ask for donations of items for the Silent Auction. Please phone ETI headquarters and volunteer some time.

If you can't volunteer, please consider sponsoring a class. The Convention is usually a lot of fun and needs your support. To volunteer or sponsor a class, contact the ETI office at (818) 698-6200 or office@etinational.com.

Our new newsletter editor is Jamie Rees. Her first issue was our March club newsletter, and you couldn't even tell there was a change...that is how good she did! We so appreciate the "years" that Mike Hayhurst has put into doing our newsletter every month. Thank you both Mike and Jeanette for doing this important job.

April 23 was our Paradise Springs trail ride. Several members indicated that they would like to camp out Friday night before the ride, but because of the wind, all but one person decided not to camp. We had nine riders, and two late riders that didn't make the whole ride, for a total of eleven. The weather turned out perfect, even though the day before had been high winds. Several of us hiked the small trail up to the natural warm spring swimming pool, and a couple people took a dip. It is quite an oasis in the desert.

At our May 17 general meeting, Beth Brockman will be conducting the equine quiz, and Jean Bredelis will be doing the equine life hacks.

May 21 will be our trail ride at Mojave Forks in Summit Valley.

Our June ride at Kennedy Meadows has been postponed to later in the summer, date to be determined, but don't forget the ECH ride at Hesperia Lakes in Hesperia on June 18-19. We have tentatively canceled the

Volunteers Needed

Convention is looking for a few new volunteers.

There are many areas where your help would be put to GREAT USE to support ETI. Don't worry if you think you don't have enough experience. We offer "on the job training" in many areas – Horse show, Trail Trials, Gymkhana, Driving, Dressage, etc. It's a great opportunity to meet fellow ETI members from other Corrals and areas and to have a good time doing good for the future of horses and people who have or want to have horses in the future.

Some of the areas that need helpers are: Class entries, Arena workers, Gatekeepers, Ring Stewards, Runners for the Office and Arenas, Trail Trial Judges, Trail Trial Entry Booth, Announcers and Assistants, Award and Ribbon Presentation, Security, High-Point Tallying, and More.

This is the largest fundraiser for ETI and your volunteering will help support the many goals that ETI has to help maintain trails, preserve horse keeping rights and trail access and promote our Equestrian Lifestyle. A little time will go along way, after all this is your organization too!

To volunteer, contact the ETI Office at (818) 698-6200 or email at office@etinational.com.

We are again asking each Corral to donate something for the Jr. Ambassador's Silent Auction which will take place at Friday 8am through Saturday noon. Please drop off items at the LAEC Horse Show Office by 2:00pm on Friday, June 24. Contact Michelle at the ETI office for more information.

FOR EQUESTRIAN TRAILS, INC., ACTIVITIES

This Is A Waiver of Your Legal Rights, And An Agreement Not To Sue
Serious Injury Or Death May Result From Riding Or Being Near Horses

1. Participant’s Name (print): _____
Address: _____ City: _____ State: _____ Zip: _____
Telephone: () _____ ETI Member _____ If Yes, Corral #: _____

2. Liability Release.

In consideration for Equestrian Trails, Inc. (“ETI”) allowing me or my child to voluntarily participate in its activities, and LAEC Incorporated allowing me or my child to participate in events on its grounds, I agree as follows:

- A. This agreement, waiver and release applies to ETI and to ETI’s affiliated Corrals, committees, employees, predecessors, successors, attorneys, insurers, members and volunteers who are working in the course and scope of their duties on behalf of ETI, including its affiliated Corrals, at the time of occurrence of any act or omission which is later alleged to be a cause or contribution to a claim for injury, damages or death, and also applies to LAEC Incorporated, its agents and employees (collectively “Released Parties”);
- B. I forever release, hold harmless and indemnify Released Parties from liability for any and all claims, demands, causes of action, damages, injuries or death to me, my minor children, my horse and my property, and legal liability of every nature, including the negligent acts or omissions of any Released Parties, whether known or unknown, anticipated or unanticipated, direct or indirect, arising out of participation in the past, present or future ETI activities (including equestrian activities, such as the riding, use of, or being near, horses, whether at an arena, stable or on a trail ride in association with ETI) and I assume all risks of injury or death as set forth in this release;
- C. I shall not bring any lawsuit, action or proceeding against any Released Parties, even if they engage in negligent conduct; and
- D. I make this agreement, waiver and release for and on behalf of myself, my spouse, my child and/or ward, heirs, administrators, successors, representatives and assigns.

3. Activity Risk.

I understand that some ETI activities take place in isolated or wilderness areas over rough terrain, and/or trails of unknown condition, and others take place on land or in facilities owned and managed by others from whom such land or facilities are borrowed or rented. I understand that the organizers, workers and members involved in ETI activities are not professionals in the horse industry, or in the planning or conducting of trips or camping events, or in other areas of expertise involved in ETI activities. I also understand that horseback riding is a rugged adventure, recreational sport activity. I am aware that there are numerous obvious and non-obvious inherent risks of serious injury or death, or property damage, to me or my horse, which are always present in ETI activities, on or near horses. I understand that pregnant women are specifically advised not to ride horses. I understand that ETI is a non-profit club of private individuals who have come together to support and enjoy recreation-oriented activities.

4. Nature of Horse.

I understand that no horse is completely safe, and the Released Parties make no representations or guarantees regarding the safety, training or suitability of any horse. Horses are 5 to 15 times larger, 20 to 40 times more powerful, and 3 to 4 times faster than a human. If I fall from a horse to the ground, it will generally be at a distance of 4 to 6 feet, and the impact will injure me. A horse may divert from its training and act according to its natural survival instincts and may abruptly change directions or speed, trip, slip, fall, stop short, shift its weight, buck, rear, kick, bite, spook, or run from what it perceives to be danger if it is frightened or provoked, or for no reason whatsoever.

5. Conditions of Nature & Locations.

I agree that the Released Parties are not responsible for acts, occurrences or elements of nature or a particular location that can injure a person or scare a horse, cause it to trip, fall or react in some other manner. These elements include thunder, lightning, rain, wind, wild and domestic animals, insects, other people and horses, and reptiles which may walk, run, fly near, bite and/or sting a horse or person, irregular footing on groomed or wild land which is subject to constant change according to weather, temperature, natural and man-made objects. The Released Parties have not inspected, and make no representations or warranties concerning the safety or condition of, any trail, camping site, arena and/or other location of ETI events.

6. Helmet Warning.

I am aware that protective head gear which meets or exceeds the quality standards of the SEI certified and ASTM standard F1163 equestrian helmet, should be purchased and worn by me and/or my child while riding and being near horses, and the wearing of such helmet may reduce the severity of some head injuries and may prevent my serious injury or death as a result of a fall or other occurrence. If I or my minor child do not wear a helmet, it is because we so choose.

I HAVE READ, UNDERSTOOD AND VOLUNTARILY AGREE TO THIS TWO-PAGE WAIVER & RELEASE. I FURTHER AGREE THAT NO ORAL STATEMENTS, REPRESENTATIONS OR INDUCEMENTS APART FROM THIS WRITTEN AGREEMENT HAVE BEEN MADE TO ME TO OBTAIN MY CONSENT.

If the Office says you are not current, check to see if your Corral has processed your membership and has sent it in. 4. ETI National Programs

Gymkhana High Point Series was initiated in 2010. The program is based on CA Gymkhana Assoc. (CGA) rules. Open to all age riders in all Corrals. Chairperson is Tracy Boldroff (tracyboldroff@sbcglobal.net). Contact her to join the High Point Gymkhana Program or to have your Corral hold a High Point Gymkhana or become the chair.

Horse Shows ETI has a National High Point Circuit. High Point Chair for 2016 is Susan Pfann (626) 221-0829 Etihighpoint2015@gmail.com. Non-ETI members can participate in our ETI High Point Shows. But to be a part of the National High Point Circuit you must be an ETI member. You can sign up for the Circuit any time during the season, but must compete a specified number of times in your chosen classes to win awards. Points towards year end awards start accumulating on the date you sign up with the high point program.

The **Junior Ambassador Program** is open to all ETI youth age 7 to 21. Boys are welcome for the Prince and King category. Applications for the program may be obtained by calling Michelle Kraut at the ETI Office (818) 698-6200 or equestriantrails@outlook.com. The completed forms are due back in the office in May 1st with all fees, sponsors, autobiography and pictures. This is a great way for our youth to represent their Corral and ETI. Participants volunteer their time at several mandatory events as well as many horse shows; trail trials, parades, trail dedications, quarterly dinner meetings and fun events just for the Junior Ambassador Court such as the retreat! Contact Michelle or any of the girls who have participated for more info on the fun activities.

Trail Rider Award Program (TRAP) keeps computerized logs on how many hours members are riding. In this day and age, when trails are giving way to housing developments, it is crucial that records be kept on trail usage. ETI Corrals in all areas are finding themselves having to defend their riding areas more and more against encroaching civilization. On several occasions, TRAP records have been instrumental in maintaining trail access.

ETI TRAP acknowledges hours in the saddle with shoulder patches & pins that can be attached almost anywhere. The fee to join TRAP is only \$12.00 (you must maintain current ETI membership); then the TRAP membership is maintained each year for only \$6.00. You will start by receiving the TRAP main shoulder patch and your log sheets. As you achieve the hour goals additional patches will be sent to you. Carol Elliott is the TRAP chair. Please contact (760) 963-8209 or happy2appy@yahoo.com.

Trail Trials: An ETI Sanctioned Trail Trial consists of a trail ride, usually averaging between two and three hours, with trail obstacles along the way. Obstacles are natural, or simulate naturally occurring conditions for the horse and rider to negotiate. We now have a DVD from a clinic demonstrating obstacles and tips to compete or put on a Trail Trial. It is important to remember that the people doing the judging at sanctioned Trail Trial event are volunteers following the rulebook and are doing thwe best they can. Safety, control, and common sense are the number one priorities for all ETI sanctioned Trail Trials. Trail Trials are open to ETI members and Non-members. There are three divisions: Juniors for youth 14 years (as of Jan. 1st) and under; Novice and Open. Please contact the ETI office at (818) 698-6200 equestriantrails@outlook.com.
