## A Message from Tom Kirsch ETI National President

Hello, to all.

This month has really been something else!! Rain, wind, mud slides, flooding and now 80 degree weather! We still need a lot more rain, but doesn't look like we are going get it.

The ETI National board meeting was held on Monday, February 17. We are doing ok financially. It's going to a little tight for a month or so until we catch up with the insurance payments from the corrals.

Nikki, Linda, Patty and Sarah have worked very hard on getting the information from the corrals that is needed for the insurance company. The corrals will be getting their insurance invoices shortly. Please read my cover letter. There is important information that you need to remember for 2025-26 event planning.

Unfortunately, insurance is becoming a large part of the ETI National budget!! It's becoming a very big problem with most people and businesses in California, and it looks like it's just going to get worse because of the wildfires that destroyed so many homes and businesses in Southern California. So please, corrals, send your payment to the office right away.

2025 is shaping up to be a good year for ETI. The corrals have many events planned for the year. Please read the magazine. The events will be posted there, and please come out and support our organization.

Our Spring Ride at Chihuahua Valley Horse Camp application is in the magazine, on the website and on our Facebook page. Nikki and I are co-chairs, and we have 10 people already signed up. I think this ride is going to be a lot of fun. It's an easy drive and just 4 days. So, come join us.

Stay safe, and look out for each other.

*Tom*

## You Will Be Missed, Betsy

Submitted by Priscilla Benson Corral 2

On February 8, 2025, Corral 2 lost a jewel of a member when Elizabeth (Betsy) Bour died. Covid took her, but only because cancer had sapped the strength she needed to fight it off. How to describe Betsy?

Well, for starters...

Betsy was smart. She had a rational, incisive intellect and was a born researcher. In any discussion, she had her facts lined up, her sources annotated, the direction of her argument clear and logically stepped. Did I mention that she was a Vassar graduate?

Betsy was resilient. About 10 years ago, she was in the kind of horse falloff/wreck that would have permanently scared most of us away from horses. But after the hospital and the therapy, she was back riding. This same resilient and brave spirit carried her through other personal difficulties. We all have our own problems, but we all don't face them as foursquarely as Betsy did.

Betsy was engaged. Perhaps the happiest years of her life were when she was a volunteer mounted police person with the Pasadena Police. She was a recipient of the "Thorny Rose" award for being a champion of the city trails, keeping them open during various construction projects and fighting attempts by others to close them altogether. And how Betsy enjoyed following the ins and outs of local politics! She knew who was in charge of what, who to tiptoe around, who to talk to.

Smart, resilient, engaged...And missed.

## Healthy Horse Treats

(recipe © Terry Golson at HenCam)

<https://hencam.com/henblog/2014/01/homemade-horse-treats/>

- 2 carrots
- 2 apples
- 1 tablespoon canola oil
- 2/3 cup molasses
- 2 cups rolled oats
- 3 cups whole wheat flour
- 2 tablespoons dried peppermint

1. Preheat the oven to 350° F. Line two cookie sheets with parchment paper or nonstick liners.
2. Shred the carrots and apples. Please use flavorful apples, like Macouns or Macintoshes. Do not use drab delicious.
3. Put the shredded apples and carrots into a bowl, preferably of a stand mixer. (You could do this by hand, but the mixer will create a better texture and it is much easier. Most handheld mixers aren't powerful enough for this dough.) Add the remaining ingredients. Cooking tip: measure the oil in the measuring cup and swirl around before pouring out. Next, measure the molasses in the same cup. The molasses will then slip right out into the mixing bowl.
4. Using the paddle attachment, beat the mixture until all is shiny.
5. Scoop out small balls, they'll be uniform if you use a scoop (you can make them half the size shown here by using a melon baller.)
6. Bake for 1 hour, or until dry all the way through. If the tops turn dark brown before the centers are done, cover lightly with a sheet of tinfoil. Cool on a wire rack.

Makes 2 1/4 pounds

## Princess Pixie's Sparkly Flax Snax

<http://princesspixiepony.blogspot.com/2012/07/princess-pixies-sparkly-flax-snax.html>

- 1 cup oats (I used rolled horse oats since I had some at the barn, but if you want them to be human edible too, then use Quaker Oats or the like)
- 1 cup flour
- 3/4 cup flax meal
- 3 Tbsp coconut oil
- 1/2 tsp baking soda
- 1/2 tsp baking powder
- 1/2 tsp cinnamon
- 1/2 cup molasses

Preheat oven to 350.

Mix the oats and flour in a large mixing bowl.

Put the flax meal, coconut oil, baking powder, baking soda, & cinnamon in a food processor and mix together. Add to the flour and oats in the mixing bowl.

Add the molasses and mix all the ingredients together until they become "dough like."

Spoon tablespoon size balls onto greased cookie sheet.

Sprinkle with edible glitter in the color of your choice.

Bake 15 mins. Then sprinkle with colored sugar and bake an additional 5-10 mins. Cool and feed to happy ponies :)

## Equine Treats

### Super Simple Trick Training Treat

<https://www.horsetricks101.com/2013/03/super-simple-trick-training-treat/>

These are Trigger's second favorite trick training treat. They are soft and just a little bit sweet. I make them out of human grade ingredients and snack on them when we are training

Oat & Apple Chews  
Ingredients:

1 ½ cups unsweetened applesauce  
1 cup quick oats  
½ cup flour

Directions:

Preheat the oven to 350 degrees F (180C).

Grease a 9 inch by 9 inch (22cm x 22cm) glass pan or baking tray.

Mix all the ingredients until the applesauce is evenly distributed, then spread the mixture evenly in the pan.

Bake for 30 minutes or until the batter firms and browns.

Allow the mixture to cool for 5 to 10 minutes and then cut it into squares. Or wait till the mixture cools completely and you can cut it into tiny squares with kitchen scissors.

Put the squares in an airtight container for storage.

### Horse Treats: Molasses Cookies

<https://www.horseillustrated.com/horse-exclusives-horse-treats-molasses-cookies>

All you'll need is a mixing bowl, a cookie sheet, an oven and the ingredients below:

1 ½ cup all-purpose flour  
1 cup bran  
1 cup molasses  
1 cup chopped apple

Preheat oven to 350 degrees Fahrenheit.

1. Chop the apples.
2. Mix the apples, molasses and flour together.
3. Add the cup of bran.
4. Give the mixture a good stir.
5. Use a teaspoon to make little balls and place them on a greased cookie sheet.
6. Bake in the oven for approximately 12 minutes. Keep an eye on them to make sure they don't burn.

What a beautiful day for a ride! Seven members headed out for the rainbow basin ride. You couldn't have asked for more beautiful weather: sunny and 60 degrees. A few members joined the group for lunch.

Our next event is the Sawtooth Canyon Ride on March 18, 2025. Sign up is at 9am, and we ride at 10am. Members ride for free, but we kindly ask for a small donation. Non-members have a \$10 daily use fee. Water and sodas will be provided, but you will need water for your equines. Bring a chair and a sack lunch. It feels like March is going to bring more of the same weather. After an unseasonably quiet winter, March arrives as though we still have 'maybe; weather to

come...Maybe rain, maybe snow. It began in mid-February with some rain, some snow in the local mountains and a huge snow dump on the Eastern Sierras, which of course we always need. The current weather pattern should offer some spectacular spring riding and wildflower bloom. It would be wonderful to get another super bloom as we had seen in recent years. Daylight savings is March 9 and the first day of Spring is March 20.

We look forward to our Winterhaven desert rides in local desert areas as a break from the muddy muck we currently have in the mountains. Susan Mustaffa led a ride in California City on Wednesday, February 19. Nine riders participated in about a 6-mile ride and culminated with a great lunch at Glorias Mexican restaurant in California City. This area is also fun to ride in March and April when the goldfield flowers bloom and the tortoise emerge from their dens. Thank you, Susan, for leading this February ride.

Winterhaven away from our muddy, iced over trails. Excellent footing. Sheila Emery enjoying her new horse.

Beautiful, sunny day, miles of excellent footing  
Photo submitted by Sheila Emery.

We have two rides scheduled in March. On Tuesday, March 11, Susan was scheduled to lead a ride over in the S/E part of Antelope Valley foothills, in an area known as Juniper Hills. That ride location has been changed to Vasquez Rocks Natural Area and Nature Center, Los Angeles County Park, in Aqua Dulce area. Kimberly Dwight of Corral 138 will lead the ride. However, those interested in riding on that ride should contact Susan at (661) 538-0995. Part of the Pacific Crest Trail passes through Vasquez Rocks Park, and if there has been some decent rain, there could be active springs and muddy areas. In the past, Corral 138 has conducted Trail Trials at Vasquez Rocks Park, because the terrain offers a variety of challenges. Some hills, some flat areas, plenty of single-track trails. If the weather holds up, it should be a great ride. For more information about what it looks like, visit Corral 138's FB page, or possibly Corral 22 may have photos of previous rides there.

I was particularly excited about the original location in Juniper hills as it was my old stomping grounds from the 1970's. My father JW Findley lived there for some 40 years. My early rides on a former wild mustang named Lucky, who my father purchased from Ray Hunt of Fremont, CA, up in the Bay area in 1970. When my father relocated from Fremont to the Juniper Hills area, he brought his new family and the horses with him. The horse, named Lucky, could cover some ground on the rocky, hilly terrain. He was a big dun gelding that could be a bit unruly at times. My father and I were the only two who rode him regularly.

Later in March, on Saturday, the 29th, I am scheduled to lead another foothills ride at Portal Ridge, Transition Habitat, in the S/W part of the Antelope Valley. This ride will have some steep terrain. With our current rains, I hope it will be a beautiful wildflower ride. Google Portal Ridge, Transition Habitat for details about the area.

Happy Trails and Happy New Year.

This past Sunday, February 16th, saw incredibly beautiful weather for Corral 12's Cheseboro Ride in Agoura Hills. 15 riders representing Corrals 12, 22, 86 & 118 showed up, rode for 3 hours and then had a sack lunch under the new shade cover and picnic tables set up by the park. These pictures were taken by our Laurie Henry and she always does an outstanding job!

Our next ride will be at Vasquez Rocks on Saturday, February 22 - rescheduled from the 9th due to the rain. I hope many riders from other corrals will attend as well! This ride will be led by Amy Nelson, and if you have any questions, please give her a call at (661) 317-1745.

It was a rainy, windy month in the high desert. Fortunately, no fires. We held our Holiday party at Dan Cotten's with a free BarBQ dinner mid-February. Our Corral ride was scheduled for the next day at Totem Pole. Due to the recent rains, it was canceled. Unfortunately, motorcycles like to hang out there after rains, too.

At our February meeting we gave Brooklynn Smith her award for completing the ride requirements for our Youth Incentive Program for 2024. She received a halter and matching lead rope with an engraved plate with her name and her horse's name.

March 8, we'll ride Quigley in Canyon Country. On the 23, we'll go to Crystal Hill in Acton.

We had a very nice ride at Joe and Cindy Flores home. Cindy was our Trail Boss and Joe was the cook and parking director. The weather was breezy and nice. We returned and had a hot dog lunch and visited before heading out. Thank you, Cindy and Joe for a very nice day.

**Ocean Pollution Prevention It's Up to Us**

Los Angeles has two drainage systems—the sewers and the **storm drains**. The storm drain system was designed to prevent flooding by carrying excess rainwater away from city streets out to the ocean.

Because the system contains no filters, it now serves the *unintended* function of carrying urban pollution straight to the ocean.

This pamphlet tells you how to prevent ocean pollution from "stormwater" or "urban runoff."

Rain, industrial and household water mixed with urban pollutants creates stormwater pollution. The pollutants include: oil and other automotive fluids, paint and construction debris, yard and pet wastes, pesticides and litter.

Urban runoff pollution flows to the ocean through the storm drain system—1,500 miles of pipes that take water and debris straight from Los Angeles streets to the ocean. Each day, 100 million gallons of polluted urban runoff enter the ocean untreated, leaving toxic chemicals in our surf and over 4,300 tons of trash on our beaches annually.

Urban runoff pollution contaminates the ocean, closes beaches, harms aquatic life and increases the risk of inland flooding by clogging gutters and catch basins.

These Best Management Practices (BMPs) will ensure a cleaner ocean and city.

**Animal Waste Problems**

Animal waste contributes to ocean pollution when it is improperly stored or left uncovered near small streams and storm drains. During rainfall, it is washed into storm drains and flows untreated, directly into the ocean.

Animal waste contains some nutrients—phosphorus and nitrogen—as well as bacteria. The nutrients fertilize the aquatic plants causing their proliferation which depletes oxygen in the water, killing sea life. The high bacteria levels in the water can cause gastrointestinal disorders and other medical problems for swimmers.

Sediment is also a common pollutant washed from pastures and livestock facilities. It creates multiple problems once it enters the ocean. It harms sea life by clogging the gills of fish, blocking light transmission and increasing ocean water temperature.

**Solutions**

**Facilities Design**

- Site barns, corrals and other high-use areas on the portion of property that drains away from the nearest creek or stream.
- Install gutters that will divert runoff away from livestock area.
- Design diversion terraces which drain into areas with sufficient vegetation to filter the flow.
- Protect manure storage facilities from rainfall and surface runoff.

**Pasture Management**

- Confine animals in properly fenced areas except for exercise and grazing time.
- Corrals, stables and barns should be located on higher ground when possible and surrounded by pasture to act as a natural filtration system.
- Utilize fencing to keep horses away from environmentally sensitive areas and protect stream banks from contamination.
- Use manure and soiled bedding sparingly to fertilize pastures and croplands.

**Grazing Management**

- Establish healthy and vigorous pastures with at least 3 inches of leafy material present.
- Subdivide grazing areas into three or more units of equal size.
- Clip tall weeds and old grass to control weeds and stimulate grass regrowth.
- Rotate animals to clean pasture when grass is grazed down to 3-4 inches.
- Let pasture regrow to 8-10 inches before allowing regrowth.
- Keep animals away from wet fields when possible.
- During heavy rainfall, consider indoor feeding, a practice which keeps more manure under roof and away from runoff.

**Collection and Storage**

Collect soiled bedding and manure on a daily basis from stalls and paddocks and place in temporary or long-term storage units. Store in sturdy, insect resistant and seepage free units such as:

- Plastic garbage cans with lids.
- Fly-tight wooden or concrete storage sheds.
- Composters.
- Pits or trenches lined with an impermeable layer.

**Use and Disposal**

- Compost soiled bedding and manure for your own use.
- Give away composted material to local greenhouses, nurseries and botanical parks.
- Transport manure to topsoil companies or composting centers.
- Fertilize pastures, cropland and lawns with manure and soiled bedding. **Do not** apply fertilizer just before or during rainstorms.

**Pesticide Alternatives**

The "chemicals only" approach to pest control is only a temporary fix. *Integrated Pest Management* is a more common sense approach for a long-term solution. Plan your "IPM" strategy in this order:

- Physical Controls
- Pheromone Traps
- Tarps
- Bug Zappers
- Fly-Tight Storage Sheds

# Trail Rider Award Program T. R. A. P.

**It's TRAP! What is "TRAP" you ask?  
TRAP is ETI's Trail Rider Award Program!**

**What does it do?  
A heck of a lot more than it sounds!**

If you have any questions about the TRAP Program, call TRAP Chairperson Carol Elliott, (760) 963-8209. All completed logs and CHECKS should be sent to Carol Elliott: 6990 Ord View Rd; Apple Valley Ca 92308. [happy2appy@yahoo.com](mailto:happy2appy@yahoo.com)

All your TRAP dues of \$6.00 are due in January.

ETI TRAP keeps computerized logs on how many hours members are riding and where.

In this day and age, when trails are giving way to housing developments, it is crucial that records be kept on trail usage.

ETI Corrals in all areas are finding themselves having to defend their riding areas more and more against encroaching civilization. On several occasions, TRAP records have been instrumental in maintaining trail access.

When a Corral calls ETI TRAP and identifies a specific problem area, TRAP not only provides them with actual riding statistics of usage, but TRAP members are notified to increase usage and support in that particular area.

Documentation from 'trail logs' turned in by TRAP members are proof that trails are being used by equestrians.

ETI TRAP acknowledges hours in the saddle with shoulder patches and pins that can be attached almost anywhere.

Lest we offend the "cart" people, TRAP also counts those non-arena hours of driving time spent on the trails.

How much does all this cost? It's cheap!!! The fee to join TRAP is only \$12.00 (you must maintain current ETI membership); then the TRAP membership is maintained each year for only \$6.00.

You will start by receiving the TRAP main shoulder patch (about the size of a police patch), and your log sheets. As you hit the hour goals (100, 200, 500, etc.), additional patches will be sent to you. When you reach the higher levels, your hours will be acknowledged with pins instead of patches.

**Why should the Show people get all the awards?**

## WAIVER & RELEASE FOR EQUESTRIAN TRAILS, INC., ACTIVITIES

**This Is A Waiver of Your Legal Rights, And An Agreement Not To Sue  
Serious Injury Or Death May Result From Riding Or Being Near Horses**

ETI Event \_\_\_\_\_ Location \_\_\_\_\_ Date \_\_\_\_\_

2. **Liability Release.**

In consideration for Equestrian Trails, Inc. ("ETI") allowing me or my child to voluntarily participate in its activities, I agree as follows:

- a. This agreement, waiver and release applies to ETI and to ETI's affiliated Corrals, committees, employees, predecessors, successors, attorneys, insurers, members and volunteers who are working in the course and scope of their duties on behalf of ETI, including its affiliated Corrals, at the time of occurrence of any act or omission which is later alleged to be a cause or contribution to a claim for injury, damages or death ("Released Parties");
- b. I forever release, hold harmless and indemnify Released Parties from liability for any and all claims, demands, causes of action, damages, injuries or death to me, my minor children, my horse and my property, and legal liability of every nature, including the negligent acts or omissions of any Released Parties, whether known or unknown, anticipated or unanticipated, direct or indirect, arising out of participation in the past, present or future ETI activities (including equestrian activities, such as the riding, use of, or being near, horses, whether at an arena, stable or on a trail ride in association with ETI) and I assume all risks of injury or death as set forth in this release;
- c. I shall not bring any lawsuit, action or proceeding against any Released Parties, even if they engage in negligent conduct; and
- d. I make this agreement, waiver and release for and on behalf of myself, my spouse, my child and/or ward, heirs, administrators, successors, representatives and assigns.

3. **Activity Risk.**

I understand that some ETI activities take place in isolated or wilderness areas over rough terrain, and/or trails of unknown condition and others take place on land or in facilities owned and managed by others from whom such land or facilities are borrowed or rented. I understand that the organizers, workers and members involved in ETI activities are not professionals in the horse industry, or in the planning or conducting of trips or camping events, or in other areas of expertise involved in ETI activities. I also understand that horseback riding is a rugged adventure, recreational sport activity. I am aware that there are numerous obvious and non-obvious inherent risks of serious injury or death, or property damage, to me or my horse, which are always present in ETI activities, on or near horses. I understand that pregnant women are specifically advised not to ride horses. I understand that ETI is a non-profit club of private individuals who have come together to support and enjoy recreation-oriented activities.

4. **Nature of Horses.**

I understand that no horse is completely safe, and the Released Parties make no representations or guarantees regarding the safety, training or suitability of any horse. Horses are 5 to 15 times larger, 20 to 40 times more powerful, and 3 to 4 times faster than a human. If I fall from a horse to the ground, it will generally be at a distance of 4 to 6 feet, and the impact will injure me. A horse may divert from its training and act according to its natural survival instincts and may abruptly change directions or speed, trip, slip, fall, stop short, shift its weight, buck, rear, kick, bite, spook, or run from what it perceives to be danger if it is frightened or provoked, or for no reason whatsoever.

5. **Conditions of Nature & Locations.**

I agree that the Released Parties are not responsible for acts, occurrences or elements of nature or a particular location that can injure a person or scare a horse, cause it to trip, fall or react in some other manner. These elements include thunder, lightning, rain, wind, wild and domestic animals, insects, other people and horses, and reptiles which may walk, run, fly near, bite and/or sting a horse or person, irregular footing on groomed or wild land which is subject to constant change according to weather, temperature, natural and manmade

objects. The Released Parties have not inspected, and make no representations or warranties concerning the safety or condition of, any trail, camping site, arena and/or other location of ETI events.

**6. Helmet Warning.**

I am aware that protective head gear which meets or exceeds the quality standards of the SEI certified and ASTM standard F1163 equestrian helmet, should be purchased and worn by me and/or my child while riding and being near horses, and the wearing of such helmet may reduce the severity of some head injuries and may prevent my serious injury or death as a result of a fall or other occurrence. If I or my minor child do not wear a helmet, it is because we so choose.

**I HAVE READ, UNDERSTOOD AND VOLUNTARILY AGREE TO THIS TWO-PAGE WAIVER & RELEASE. I FURTHER AGREE THAT NO ORAL STATEMENTS, REPRESENTATIONS OR INDUCEMENTS APART FROM THIS WRITTEN AGREEMENT HAVE BEEN MADE TO ME TO OBTAIN MY CONSENT.**

## ETI National Programs

**Horse Shows** ETI has a National High Point Circuit which is currently on hiatus. Until then, please contact the ETI office. Non-ETI members can participate in our ETI High Point Shows. But to be a part of the National High Point Circuit you must be an ETI member. You can sign up for the Circuit any time during the season, but must compete a specified number of times in your chosen classes to win awards. Points towards year end awards start accumulating on the date you sign up with the high point program.

The **Junior Ambassador Program** is open to all ETI youth age 7 to 21. Boys are welcome for the Prince and King category. Applications for the program may be obtained by contacting Cheri Ovayan at (818) 335-2884 [covayan97@icloud.com](mailto:covayan97@icloud.com). The completed forms are due back by April 2<sup>nd</sup> with all fees, sponsors, autobiography and pictures. This is a great way for our youth to represent their Corral and ETI. Participants volunteer their time at several mandatory events as well as many horse shows; trail trials, parades, trail dedications, quarterly dinner meetings and fun events just for the Junior Ambassador Court such as the retreat! Contact Michelle or any of the girls who have participated for more info on the fun activities.

**Trail Rider Award Program** (TRAP) keeps computerized logs on how many hours members are riding. In this day and age, when trails are giving way to housing developments, it is crucial that records be kept on trail usage. ETI Corrals in all areas are finding themselves having to defend their

riding areas more and more against encroaching civilization. On several occasions, TRAP records have been instrumental in maintaining trail access.

ETI TRAP acknowledges hours in the saddle with shoulder patches & pins that can be attached almost anywhere. The fee to join TRAP is only \$12.00 (you must maintain current ETI membership); then the TRAP membership is maintained each year for only \$6.00. You will start by receiving the TRAP main shoulder patch and your log sheets. As you achieve the hour goals additional patches will be sent to you. Carol Elliott is the TRAP chair. Please contact (760) 963-8209 or [happy2appy@yahoo.com](mailto:happy2appy@yahoo.com).

**Trail Trials:** An ETI Sanctioned Trail Trial consists of a trail ride, usually averaging between two and three hours, with trail obstacles along the way. Obstacles are natural, or simulate naturally occurring conditions for the horse and rider to negotiate. We now have a DVD from a clinic demonstrating obstacles and tips to compete or put on a Trail Trial. It is important to remember that the people doing the judging at sanctioned Trail Trial event are volunteers following the rulebook and are doing the best they can. Safety, control, and common sense are the number one priorities for all ETI sanctioned Trail Trials. Trail Trials are open to ETI members and Non-members. There are three divisions: Juniors for youth 14 years (as of Jan. 1st) and under; Novice and Open. Please contact the ETI office at (818) 698-6200 [office@etinational.com](mailto:office@etinational.com).
